● ABOUT ME

SAP professional with **3+ years of experience at Infosys Ltd.** in enterprise technology and SAP environments, with experience in supporting and delivering SAP-related solutions in large-scale business environments. Experienced in **SAP S/4HANA concepts, SAP technical development, ABAP, SAP Fiori/UI5, SAP BTP, integration technologies, APIs, and enterprise application support.** Strong understanding of SAP architecture, business-process integration, troubleshooting, incident resolution, testing, and application lifecycle management. Engineering graduate with a **B.E. in Electronics & Telecommunication Engineering**, combining strong technical fundamentals with experience working in structured, global IT delivery environments.

● EDUCATION AND TRAINING

2018 – 2022 Pune, India
BACHELORS OF ENGINEERING Dr. D.Y. Patil Institute of Engineering, Management and Research

Field of study ELECTRONICS & TELECOMMUNICATION

● WORK EXPERIENCE

SENIOR SYSTEMS ENGINEER – INFOSYS LTD – 2022 – 2026 – PUNE, INDIA

- Supported and developed **SAP S/4HANA** applications for global clients, covering development, enhancements, maintenance, and production support.
- Developed and maintained **ABAP** programs and technical objects; performed debugging, data processing, validations, and issue resolution.
- Worked with **SAP Fiori/UI5, OData, CDS Views, APIs**, and SAP integration technologies.
- Supported **SAP-to-external system integrations** and investigated interface-related issues.
- Analyzed business and technical requirements and contributed to scalable SAP technical solutions.
- Performed **root-cause analysis, defect resolution, testing, deployment, and post-production validation.**
- Managed incidents, service requests, and change requests while meeting defined **SLAs and quality standards.**
- Collaborated with functional consultants, developers, QA teams, business analysts, and international stakeholders in **Agile/Scrum** environments.
- Prepared technical documentation, test cases, implementation notes, and knowledge-transfer materials.
- Contributed to continuous improvement initiatives focused on **application stability, maintainability, and operational efficiency.**

● SKILLS

SAP Technologies

SAP S/4Hana | CDS Views | SAP ABAP / ABAP Objects | SAP Fiori / SAPUI5 | OData Services | SAP APIs & Integration | SAP BTP — working knowledge | SAP Integration Suite / CPI — working knowledge

Application Development & Support

SAP application development and enhancements | Debugging and troubleshooting | Production support | Incident and problem management | Root-cause analysis | Defect resolution | Testing and deployment | Application maintenance

● LANGUAGE SKILLS

Mother tongue(s): **MARATHI** | **HINDI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C2	C2	C2
GERMAN	A2	A2	A2	A2	A2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

● **PROJECTS**

SAP Enterprise Application / S/4HANA Project

Role: Senior Systems Engineer / SAP Technical Professional
Organization: Infosys Ltd.
Environment: SAP S/4HANA, ABAP, Fiori/UI5, OData, APIs, SAP BTP/Integration [retain only technologies actually used]
Responsibilities:

- Supported SAP applications used within enterprise business processes.
- Developed and maintained SAP technical components.
- Analyzed functional requirements and translated them into technical solutions.
- Performed debugging and troubleshooting of SAP applications.
- Worked on enhancements and defect resolution.
- Supported integration between SAP and non-SAP systems.
- Participated in SIT, UAT, regression testing, and production validation.
- Collaborated with functional consultants and business stakeholders.
- Maintained technical documentation and supported knowledge transfer.

Key Contributions:

- Improved application stability through structured root-cause analysis and defect resolution.
- Supported timely resolution of production issues within defined SLAs.
- Contributed to application enhancements and modernization initiatives.
- Worked effectively with cross-functional and geographically distributed teams.

SAP TECHNOLOGY STACK
ERP: SAP S/4HANA
Programming: ABAP, ABAP Objects
SAP Development: CDS Views, RAP, OData, Enhancements
UX: SAP Fiori, SAPUI5
Cloud: SAP BTP
Integration: SAP Integration Suite, Cloud Integration/CPI, APIs, REST, OData
Business Processes: MM, SD, FI/CO, P2P, O2C, R2R
Methodologies: Agile/Scrum, SDLC
Support: Incident Management, Problem Management, Change Management, Production Support
